

Open Space, the River, Recreation, Stormwater

GOAL: To transform natural systems and open space, we must make the river a centerpiece of campus, maintain recreation capacity and develop a district-level stormwater strategy.

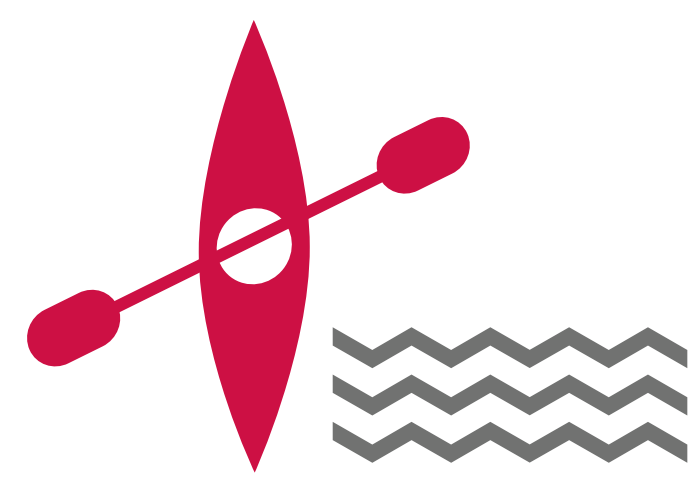

OPEN SPACE

Connectivity and improvements

RIVER

Access and programming

RECREATION

Flexibility and long-term strategy

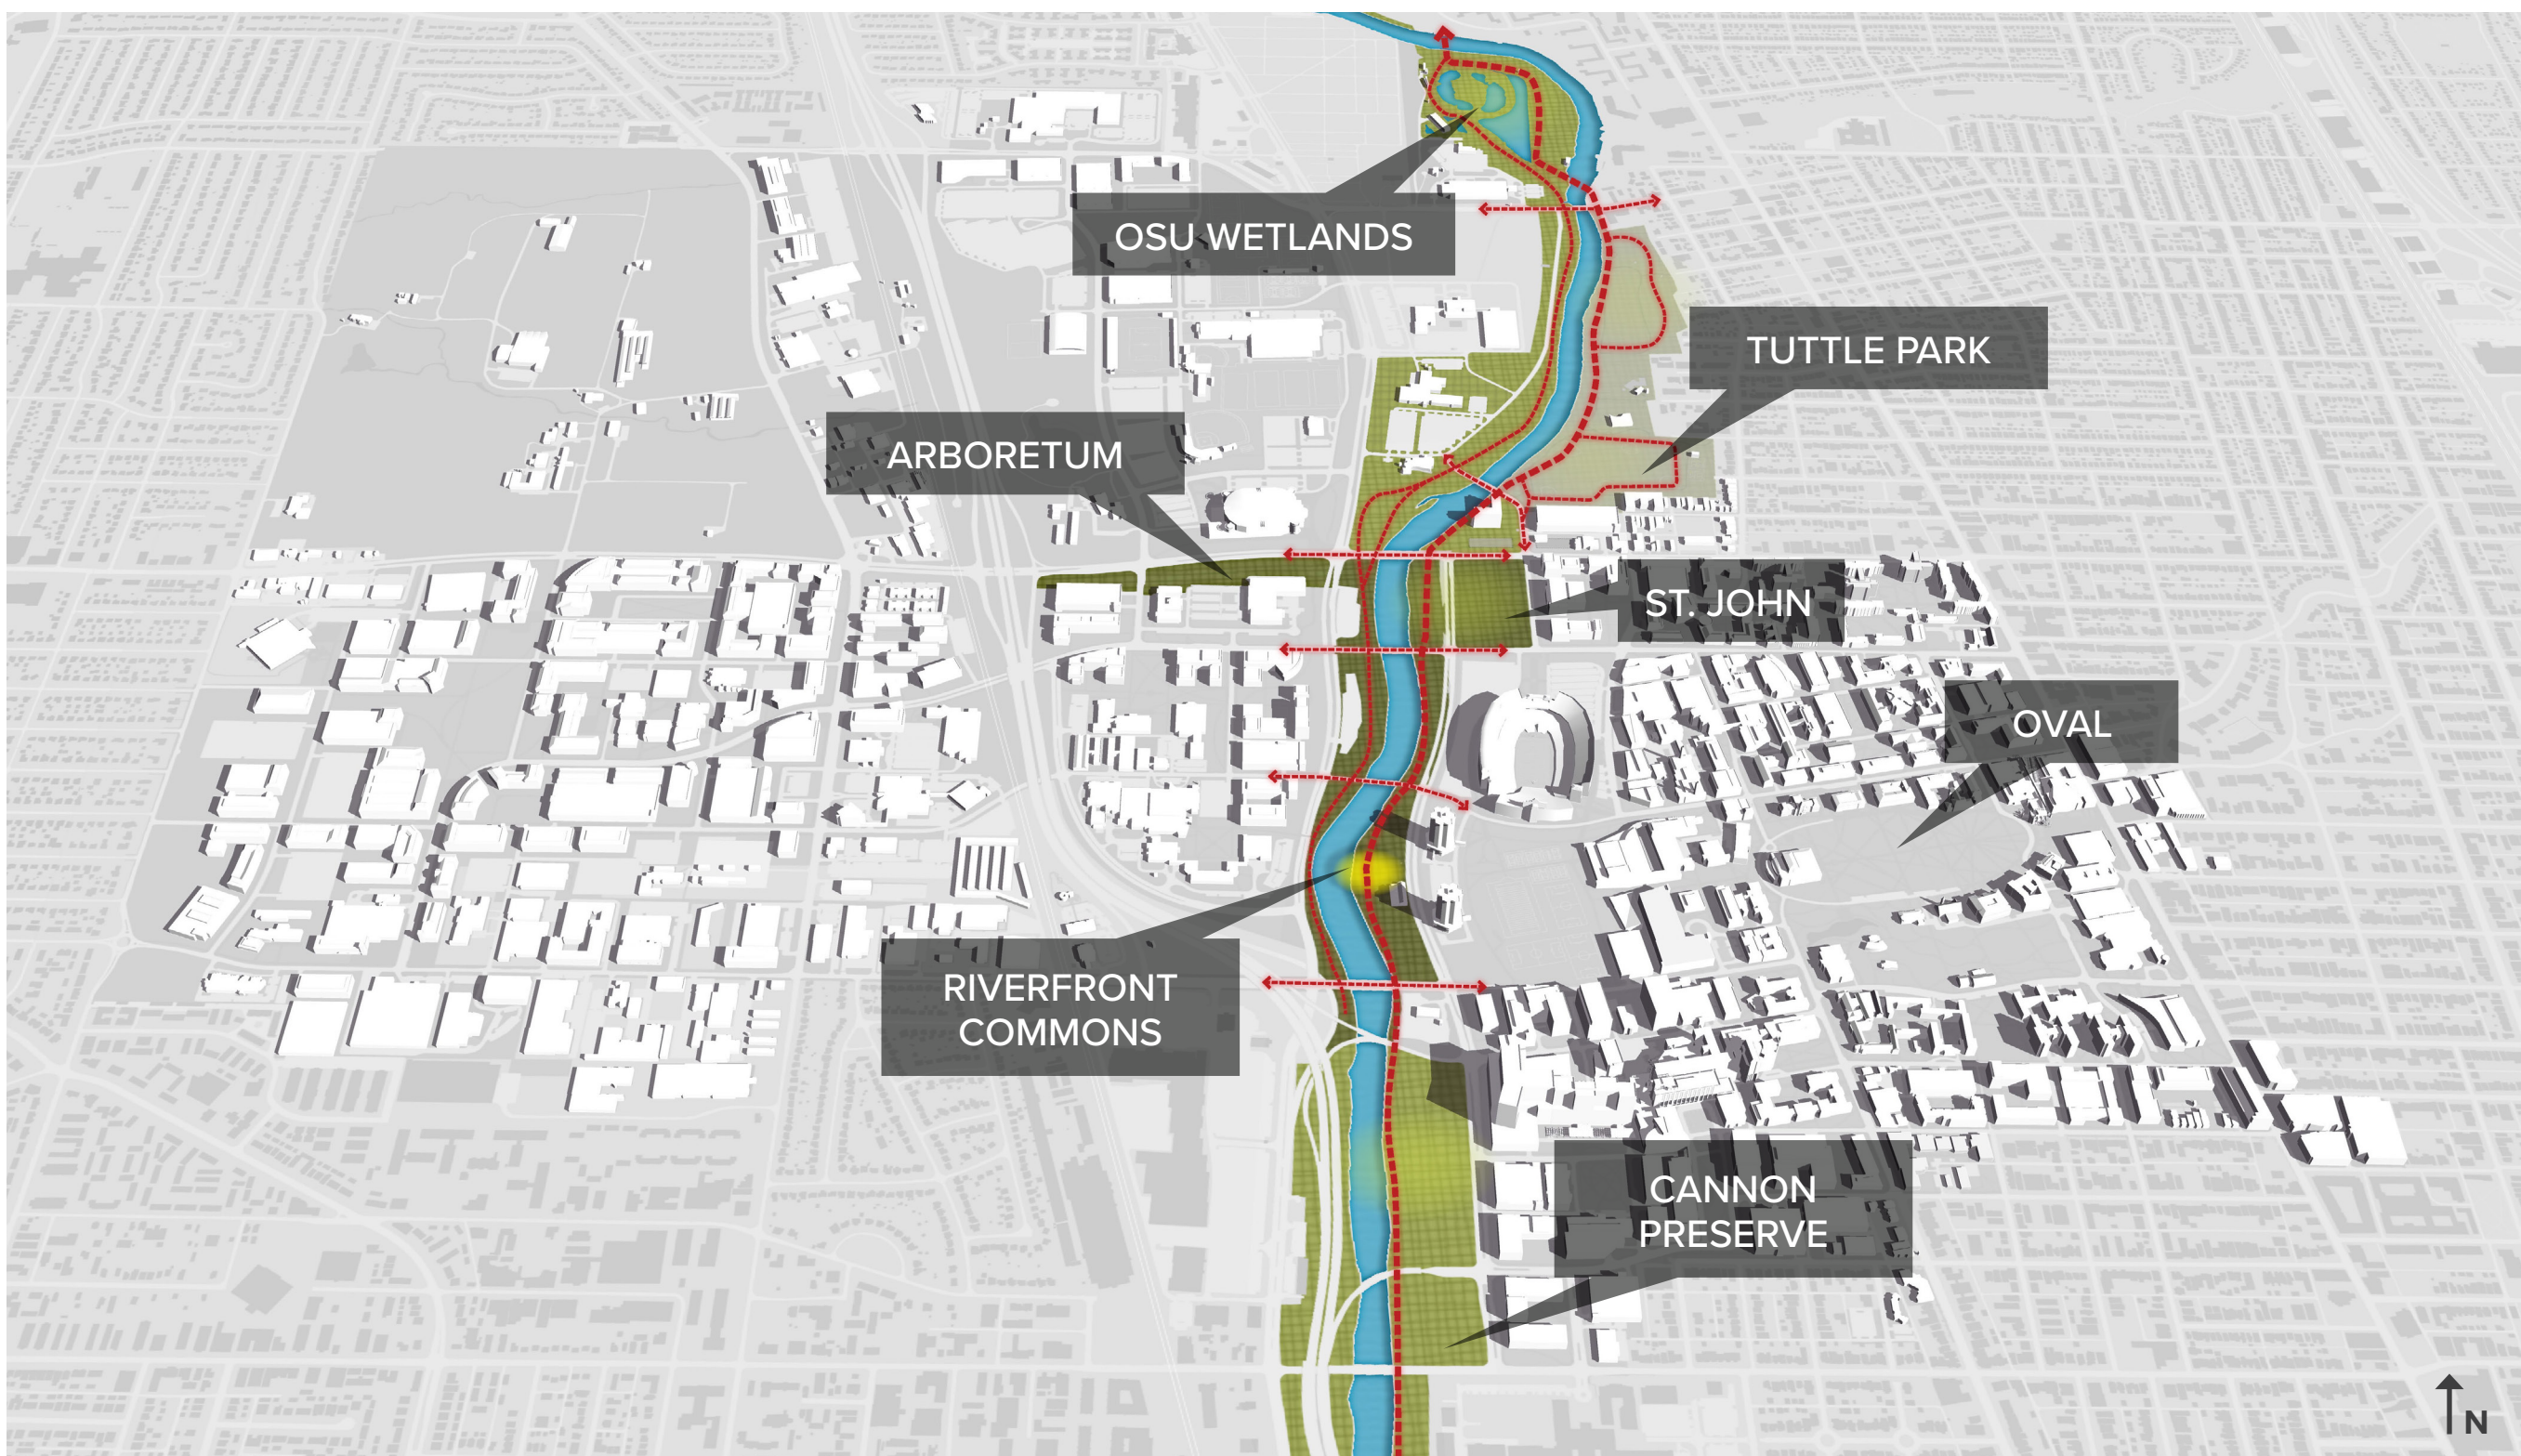

STORMWATER

District approach

Proposed connected open space network for campus

Framework 2.0 proposes better access and programming for the river as the center of campus

Restoration of historic Mirror Lake and the surrounding district focusing on safety and sustainability
